

ISO Geodetic Registry

<i>Item class</i>	Transformation	
<i>Name</i>	NAD83(CSRs) v3 to CGVD28 - NOHt [v1]	
<i>Item status</i>	VALID	
<i>Identifier</i>	618	
<i>Alias</i>	HTv2.0	
<i>Alias</i>	Height Transformation version 2.0	
<i>Information source</i>	<i>Title</i>	The GPS Height Transformation (v2.0): An Ellipsoidal-CGVD28 Height Transformation for Use With GPS in Canada
	<i>Author</i>	M. Veronneau, A. Mainville, M.R. Craymer
	<i>Publisher</i>	Geodetic Survey Division, Natural Resources Canada, Government of Canada
	<i>Publication date</i>	2001
<i>Data source</i>	ISO Geodetic Registry	
<i>Remarks</i>	Grid transformation from NAD83(CSRs) v3 ellipsoidal heights to CGVD28 normal-orthometric heights using hybrid geoid model NTV2.0 based on the CGG2000 geoid mode that has been distorted to fit with benchmarks elevations in the CGVD28 vertical datum.	
<i>Operation version</i>	v1	
<i>Scope</i>	Spatial referencing	
<i>Operation accuracy</i>	0.05 m	
<i>Source CRS</i>	NAD83(CSRs) v3 - LatLonEht	
<i>Target CRS</i>	CGVD28 - NOHt	
<i>Operation method</i>	Geographic3D to Gravity Related Height (Canada)	

Extent

<i>Description</i>	Canada - onshore and offshore - Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories, Nova Scotia, Nunavut, Ontario, Prince Edward Island, Quebec, Saskatchewan, Yukon.	
<i>Geographic Bounding Box</i>	<i>West-bound longitude</i>	-141.01
	<i>North-bound latitude</i>	90.0
	<i>East-bound longitude</i>	-47.74
	<i>South-bound latitude</i>	40.04

Operation parameter values

<i>Geoid (height correction) model file</i>	HT2_0.byn
---------------------------------------------	-----------

<i>Item class</i>	OperationMethod
<i>Name</i>	Geographic3D to Gravity Related Height (Canada)
<i>Item status</i>	VALID
<i>Identifier</i>	89
<i>Data source</i>	ISO Geodetic Registry
<i>Remarks</i>	For consistency with earlier geoid models in Canada, reference software for CGG2013 and CGG2013a uses bi-quadratic interpolation over nine grid nodes. The bi-linear interpolation is sufficient for most uses as the newer models have a higher spatial resolution. See information source for file format documentation.
