<i>Remarks</i>	Replaces IGS08. Replaced by IGS14. Used by IGS products within the period 2012-10-07 thru 2017-01-28.	
<i>Anchor definition</i>	Derived from and aligned to a subset of 232 stable, well-performing IGS station coordinates and velocities in ITRF2008 at epoch 2005.0. An update to IGS08, designed mostly to recover unuseable reference frame sites, accompanied by an update to ground and satellite antenna calibrations, including new estimates for Block IIF satellites.
