<i>Remarks</i>	Replaces ND83(HARN) in Puerto Rico and US Virgin Islands only. Replaced by NAD83 (FBN).	
<i>Anchor definition</i>	A realization of NAD83 for Puerto Rico and the U.S. Virgin Islands only. The original HARN solution for Puerto Rico and the U.S. Virgin Islands was found to be shifted30 cm appoximately eastward. Positions had been obtained on this, so it is retained in the original HARN solutions. This replaces that effective in 1997 with corrected positions.
