## ISO Geodetic Registry

Item class Transformation

NAD27 to ATS77 [NSv1]

Item statusVALIDIdentifier584

Information source Title The Evolution of Nova Scotia's Spatial

Referencing System from its Origins until 2012

Author J. Bond, W. Robertson

Publisher Canadian Institute of Geomatics

Publication date 2015 Series/Journal name Geomatica Issue identification Volume 69, No. 4

Page 407-418

Information source Title RE: NAD27 - ATS77 transformation?

Author J. Bond

Publisher GeoNOVA, Geographic Information Services,

Nova Scotia Geomatics Centre, Government of

Nova Scotia

Publication date 2017-05-09

Other citation details Personal email communication.

Information source Title FAQ: What are some of the transformation

methods for Canada?

Author Esri Canada
Publisher Esri, Redlands, CA
Publication date 2016-05-05

Publication date 2016-05-05
Issue identification Article ID: 000011846

Information source Title A spatial referencing policy for the Province of

Nova Scotia: Policy Document

Author GeoNOVA Reference Coordinate System Policy

Node

Publisher GeoNOVA, Service Nova Scotia and Municipal

Relations

Publication date 2006-01

Data source ISO Geodetic Registry

Remarks Grid tranformation in NTv2 format adopted for use in Nova Scotia.

Operation version NSv1

Scope Spatial referencing

Operation accuracy 0.1 m

Source CRS NAD27 - LatLon
Target CRS ATS77 - LatLon

Operation method NTv2

#### Extent

Description

Geographic Bounding Box

West-bound longitude
North-bound latitude
East-bound longitude
South-bound latitude
South-bound latitude
47.08
East-bound longitude
-59.73
South-bound latitude
43.41

#### Operation parameter values

Latitude and Longitude difference file TRNS2777.DAT

# ISO Geodetic Registry

Item class OperationMethod

Name NTv2
Item status VALID
Identifier 95

Alias National Transformation version 2 grid shift

Data source ISO Geodetic Registry

Remarks National Transformation version 2 grid shift file interpolation. Geodetic

transformation operating on a grid of 2D geographic coordinate

differences by bi-linear interpolation. Assumes longitudes to be positive

west.

### Operation parameters
