Remarks The EUREF Technical Working Group (TWG) recommends to use the

ETRF2014 for high precision applications and better consistency with

the ITRF2014 precise geocentric origin.

Anchor definition Coincides with ITRF2014 at epoch 1989.0 and is fixed to the stable

part of the Eurasian tectonic plate through 3 rotation rates derived from the ITRF2014 velocity field, representing the Eurasian plate's angular

velocity about its Euler pole.
